

TO WHOM IT MAY CONCERN

Olivia and Marinell Iliuc have taken care of several of my patients over the past twelve years. I have been consistently impressed by their level of caring and knowledge about their residents. Both Olivia and Marinell have accompanied my patients to doctor visits, and it is very clear that they are taking excellent care of each resident.

They have both demonstrated an uncommon understanding of the medications used in the elderly, and in the management of chronic conditions such as heart failure, dementia, and depression. They have been very good at monitoring weight and blood pressure, and documenting compliance with medications.

I would definitely recommend their home to anyone considering an Adult Family Home.
